## SUMMARY

---

I have hands-on experience managing various IT projects and systems, including building a website for my company and leading the project management for the Employee Information Management System (EIMS). I also manage Connecteam, ensuring smooth daily operations. My work extends to researching and implementing new processes and automation solutions to improve efficiency. Additionally, I am responsible for ensuring all equipment in stores is in good condition, setting up internet and computers, and managing the Connecteam platform.
